

Talha yaqoob

Web Developer

I thrive on challenges, always striving to deliver my best. Adaptable and persistent, I tackle tough situations head-on. I bring a knack for problem-solving and a drive to find effective solutions. Guiding and inspiring teams toward success is something I genuinely enjoy. I aim to be part of an industry that fosters growth and encourages creativity, allowing me to apply my skills and enthusiasm to drive positive change.

PERSONAL PROJECTS

PROPERTY MANAGEMENT SYSTEM (c++)

- The property management system makes sales tasks easier. It helps add and update property info smoothly. You can easily add new listings and fix old info. It also helps quickly find data for client presentations as well as you can delete a specific property as well. Plus, it has a secure 'Exit' button for ending sales sessions smoothly."

Portfolio-website

- This innovative portfolio website, developed using HTML, CSS, JavaScript, and Bootstrap, harmoniously blends creativity with technical expertise. Showcasing various projects, skills, and experiences, its responsive design offers an immersive viewing experience on multiple devices."

Bank Transection App(CRUD) { asp.net}

- "Utilizing ASP.NET Core, my CRUD app manages bank transactions seamlessly. It enables effortless creation, retrieval, modification, and deletion of transaction records. With a secure design, it ensures reliable financial management, offering users an intuitive and efficient banking experience."

WORK EXPERIENCE

Freelancing self employed

"I crafted an exceptional and highly impressive portfolio that showcases my work in a compelling and captivating manner"
